April 29, 1957

Dear Aunt Alma & Uncle Kirby,

Now it is I who am apologizing for not writing. I got your letter the day I went home for the Easter holidays. I wasn't expecting any mail that morning, so your letter was doubly welcome.

I enjoyed the holidays very much. I took off a day early. I talked to my professors and they told me to go ahead. They didn't even give me double cuts! That one day made all the difference in the world. I got almost everything done that I needed to do. I really needed to be sure that I have a job for this summer. I have one and with an increase in salary.

Easter I played the organ for church. Mrs. Atkins went visiting and asked me to play for her. I was glad to do it, she's gotten chair makes now.

The day after we got back to school, it really rained. They had had a flood the weekend we were home. It seems like the rains just keep coming. It rained so hard Tuesday that we didn't have classes. The creek overflowed and they had to open the gates on Lake Itasca. Some of the neighboring towns were really hit hard.

We were afraid it would get up to the dorm for a while. It did flood the boys' dorms.

A couple of days later the sky really looked bad. It was practically yellow. The wind blew 108 m.p.h. I was at work when it happened. I was scared too. It lasted for only about 2 hours.

It has rained for nine days. The radio this morning said to expect it for the next five. Seems like we

never could get any rain. Now it won't stop. We have had 3 more inches of rain already this year than we had all of last year.

Our church just finished a revival last week. Even though the rains came people came to the services. We had good results. We only got to go one night during the week. They wouldn't let us out of the dorm to go, but it would have been silly to try.

I have been working hard. Also have been studying although not as much as I could.

I am enjoying my art course. My last picture is my favorite. It is a landscape. Everyone thinks it is very good - even Miss Jennyson. I'm very proud of it.

We have a holiday Wednesday - May Day.

We've had a lot of holidays  
what with Easter and the rains.

Baylor gets out earlier than  
the other colleges. I have to  
stay for a test on the 23<sup>rd</sup>  
of May. Then I can go home  
and will I be glad to get  
there.

Your puppy sounds like  
quite a handful! We don't  
have as many birds as you all  
do, but we have some mighty  
cute squirrels.

We didn't have a thing except  
bread that I liked for supper.  
I ate three rolls and will  
probably get fat again. I'm  
starving now.

Love you all,  
Many Jo.

Dear Kelley Anna -

Sorry this check is so late. I was in charge of the S.T.A. Founder day Program this month. everything went to bat except that. I just can't take on a responsibility like that & keep things running smoothly at home. But one has to take a turn at it once in a while. The program went well & was enjoyed. I read a narration of the Founding & history of S.T.A. & for each 10 year period or so we showed fashions of that era. Such clothes - it was fun, but entailed lots of telephoning & running around to find & gather them. We even had a copy couple of the real high button women shoes.

Alma - I've been doing some  
gardening. Put in some calendula for  
spring color & cleaning out & trying to  
get things in shape before the  
big weed growing spurt starts.

We finally got 3 walnut trees  
& 2 cherries. Hope to put roses on  
the fence before it's too late - but  
they aren't cheap - are they?!!

The children are all well from  
our scourge of colds & coughs. Lots of mumps  
around now. All but April had  
them last spring - but she got it only  
bad on one side.

Bucket Ball season ended this  
Thursday. We wound the season up in  
4<sup>th</sup> place. Except for one game which the  
boy played very poorly. They were well  
pleased. This was the worst team  
he has ever had - <sup>but</sup> they ~~were~~ learned  
faster & were more coachable than any  
previous team. All are seniors - so it's a  
fresh start again next year.

About the pups - we are going to see  
them some time this week end. There is only  
1 white male. Would really ~~want~~ many want  
black & silver? How could we get the  
pups to them? We could keep yours for you

until you come in April.  
Is that what you had in  
mind? - Do take it home  
then? Were you planning to  
take Walter & Major then too?  
Wish they had been born a  
month later. Can't you see us  
here with 3 pups & Major?!!!!  
for a month! Wow! We have  
thought we could skip this  
round & get a pup for ourselves  
next time, but we'd be in the  
poxy if something happened to Major  
in the meantime.

We had planned to spend  
Easter with my folks. However  
we have the whole week off  
before Easter & perhaps it would be  
even better if we visit them  
during that week.

It will be fun to have Art too.  
We are disappointed that he hasn't  
been able to come up. Haven't heard  
from him since Xmas. Will finish  
this after we see the pups.

Kay is working on the storage wall  
in living room. Dad planned & have  
baseball practice this weekend -  
but the rain stopped that.

We are buying Encyclopaedia  
Britannica - The 24 volumes will  
come in next 2 weeks - so I just  
finally put the space to use on the  
storage wall - which we've been  
talking about for 3 years. This will  
house records - player - speaker - Books -  
magazines - a desk - radio - also  
storage for magazines we save to clip &  
vases - art objects etc. So many of these  
things are cluttering closet that were  
built for some other purpose.

I saw an add in Wall Leo. for  
the Encyclopaedia & sent off for information. So  
we had a salesman. It's one of those  
advantage deals (they start canvassing the  
area in March) for the privilege of using  
their name as buyer of a set & also our  
giving them 10 names of possible prospects.  
They - we got \$142 off the regular price.  
Payments are \$15 per month & no carrying  
charges. The other deals we looked at were  
near or same in price - not half the Ency. this  
is. We are real enjoying the Wall  
Leo. Kirby - the whole family. It's

a wonderful thing.

Barbie & Wendy both had excellent school report this past quarter. Wendy's teacher says Wendy is one of her most dependable youngsters - & she is doing very well in school work. This is the 1st year she has completely liked her teacher. Just a matter of being OK. before, but this one she is most enthusiastic about & we're so glad.

On Barbie's Kindergarten Progress report the gal said "Barbara is a teacher's joy." Also just during the 2 weeks period when there were 2 weeks off because of cold weather I lot out because I had to be Barbie blossomed & had "a thing I remembered twice" . . . a thing I thought would never happen" and then I'm so glad I have one teacher. It's wonderful to have them both enjoying school so well. They also get along better together at home too.

Didn't get a chance to  
see the pups - too much  
rain over weekend.  
Will send them off +  
write about pups later.

Sue,  
Epsie

Tell Marie that she was  
not late for April B'day at  
all. The ~~old~~ <sup>new</sup> flower  
their gift will be May 6  
writing soon.

Hi -

Am I having fun  
with our pups! Riff is  
such a monster that he  
hardly looks like a pup now.  
His feet are almost as large  
as Majors - no kidding.

Is Sulu going thru the  
process of learning to keep his  
ears up? It's a scream - he  
looks so funny when he runs.  
They way they flap eyes down!  
He leashed out of his house  
last night - so now I guess he  
sleeps in the back porch.

I meant to write when they  
were 3 months old - but let

it slip. They were born  
on January 23<sup>rd</sup>.

Yes. Ryo loves water too -  
& now. He bites at the hose  
(I mean water coming out of it)  
but Major always does too.  
I'm fed in the summer when  
the kids are playing in the  
hose water - we have to put  
Major in the house, because  
he won't stay away & those  
snapping jaws can be  
dangerous!

Major is a complete  
push over - let the guy chew  
him to pieces & loves it. It  
certainly helps keep the wear &  
tear off of the kids' tho'!

Have you noticed the real  
dog hair coming in on Sulu's  
back? Ryo's stands up on end  
when he's barking at a stranger &  
it looks comical - just that one  
little tuft! This is like having

hallo at the same  
time - isn't it? - Company  
notes et al!! Alma will  
you bring Sulu my culver  
you come? Wouldn't they  
have fun together!

Hinsley - If we don't write  
again before you leave here  
wishing you a wonderful trip &  
godspeed all the way. Will  
be eager to hear from you.

My folks have definitely  
decided to come to Sinden in  
June to stay. So we are  
in the process of house hunting &  
believe we have found a good  
spot for them. Tho' it is very  
small. Dad has had a  
rough past month so is now  
convinced about retiring - at  
least for awhile. Their  
Social Security is coming along

nicely believe they can start  
to draw in July. Glad yours  
is all fixing too.

Liles may be teaching in  
Tome (small town about 12  
miles from here) next fall, but  
they plan to continue living in  
Salem - I guess I told you?!

Herb Kay signed his  
contract. It's nice not to  
be going thru a big  
decision as we did last  
year at this time!

Time for bed.

Much love to you  
both - & to Sue.

Epsie

P.S. How Casey doing?  
Got to keep up with our triplet!

May 14, 1957

Dear Aunt Alma & Uncle Kirby,

Not only have we had high water  
but Sunday I was in a cyclone.  
He watched it. Finally it hit, two  
blocks from where we were staying.  
It damaged four houses but  
miraculously no one was hurt. All  
was in Crawford where I go to  
church. That's about 20 miles from  
Haco.

Believe me, I've never been  
scared so in quite such a way!  
I'd always thought they were black  
but this one was white. The clouds  
all around were pitch black.

You know how Daddy listens to  
the news, particularly the weather.  
When I got back to the dorm  
Sunday night I immediately placed  
a call home. I knew they would  
be worried about me. Things  
always sound much worse over  
the radio. When I finally got  
them, guess what? They hadn't even  
listened to the radio! Daddy has

had a lot of extra work brought on by the floods. Now they will be worried about me till they get me home. I think the weather has left now. The sun was out today in a beautiful blue sky. First time in way over a month.

Uncle Kirby, I suppose you will be busy now more than ever. I know your trip will be very rewarding. I shant expect a letter from you, Aunt Alma can relay the news. I would like a postcard from Moscow if you have time. I'm very interested in Moscow because of an economics course I'm taking this quarter.

Exams begin the 21st and I go home home the 23rd. Momma and Daddy are coming up after me. That is, if they can now out.

Momma sent a huge package of cookies and kolaches

to keep us healthy during exams.  
She really outdid herself this time. It will take us a couple of days to demolish these. My室mates will help devour them.

The dining hall is cleaning out its refrigerators now. The meals are getting progressively worse. Don't be too much longer now.

My roommate is thinking about attending an art institute in Los Angeles. I don't want her to leave. She's not sure she wants to yet. She admires you all very much.

Set myself a 10 p.m. deadline and have passed it now. I've spent more time letter writing than studying but I enjoy it so much more.

I don't guess "Bon Voyage" is what they say when you're going on a plane but do be careful. Aunt Alma, don't do too much.

Love you both very much,  
Mary Jo

Darling:

Gee! I keep waiting for you to come in and say "When do we eat?" So does Lulu. Seems awfully still and lonesome without you.

Be sure to shift your notebook & tissues to the suitcase, so you will not extend the small bag too much. Also when you use your clothes line, you have to wet the end pieces to make them stick.

If you don't get any more letters from me, it is because I can't find addressees. Not in folder, at least not beyond N.Y. Looked in desk.

What about airsickness. Did you need a pill. Or don't they give them to you? - Heaps and heaps love

Dearest:

The flight across the ocean  
was smooth & pleasant. Sunrise  
was glorious above the clouds.

Have now made three flights  
to N.Y., across to Glasgow, and  
& London. No airsickness!

Had our first group <sup>reunion</sup>  
with Muriel & Doris Lester,  
Reginald Reynolds whom we  
met in India and Allen  
Skinner. Going to Quebec  
meeting soon.

Long sleep last night  
and feeling fine.

It is pleasant to be back in  
London.

Bill is very efficient with  
arrangements.

18 of us here. Excellent  
group.

Room by myself!

Dr & Mrs Reynolds are with  
us. So far very congenial.  
Our new minister is  
a great addition to the party.  
How I wish you could  
be here.

Darling:

Made a quick trip up Friday. Art did not come. Would not get paid until Monday and did not want to borrow from me or Kay - may possibly come up and go home with me - gave Lulu a pill and she was quiet whole trip. The Vet told me that morning that if we ever decided we didn't want her, he would take her. Since Art didn't come, I left home at 1 o'clock. Wanted to leave at 12, but after going to town after taking Lulu in and had to make so many trips to load up. Put things in cart to take them down. Epsee and kids very much pleased with new Pictorial Knowledge Books. Oh boy, if you could see Lulu & Rye. They go constantly. Have to let her in the house to sleep during day. She just flops and sleeps.

Card from Sherwood says they always stay at the Victoria Palace Hotel near M. Parnasse Ste. in Paris. Geo. Paine sent check for \$50. So we will not starve.

Kay and Epsee sleep late Sat & Sun. so things are pretty lively for a while. Have fed kids except April.

Bobbie & Sadies address is Glen Thornton Inn Duncan Rt 2 Box 2 Thibodaux, La. Oh, I forgot Nini's address when I looked. Was in hurry. Will send when I get home. Things sure were quiet at home last week. When I get back Heather is coming - Heaps and heaps love  
Always yours

Dear Kerley -

Your cards received and enjoyed. Gander brought back memories - some country! We are following your schedule closely and remember you daily. Sally keeps saying Grampy is over where Daddy was - across the ocean!

Hope you're adjusting to fast travel and time change by now. Eager to hear of group's experiences as you go along.

Larry Scott due here from NY & Chicago this Thursday to talk over plans for July assembly at Las Vegas for demonstration on tests in Nev. Some groups invited to meet with him.

The German Quaker Peace Comm. leader's name is better spelled - Margarethe Lachmund in Berlin.

Hi -

Hardly seems possible summer vacation is upon us again - except for the weather! It's been 95-100 here lately.

Heather had a good trip - came back all racing to go again. Ron graduates next week and his classmates voted him one of the "50 campers" which helps on the Yosemite Canora Trip.

We finally got the rest of the kitchen painted on Memorial Day - except the inside of the cupboards - looks quite nice.

Heather had a nice birthday - horseback riding with James & Walt - then we all went up San Gabriel River to cool off -

Dear Alma and all:

Received your letter last evening when we went down after the mail, also one from Kirby mailed from Philadelphia. It was good to know that you didn't have any trouble on your trip north and that Lulu survived O.K.

It has been very hot down here since you left, three days in a row of over 90 degrees. Supposed to be a little cooler today about 88, was quite foggy this morning when I left home. So that means we have really been pouring the water on. I have watered every night until dark.

Eat some cherries for me. There have been some in the stores but they don't look very good yet. Did see some beautiful ones about a week or so ago but they were .79 per pound, didn't think they were that beautiful. But hope they will soon be some good ones as the ones down by Beaumont will be ready in about two weeks.

I took Mrs. Levine to the train yesterday morning, so we have the cat to look after. She will be back sometime Thursday afternoon late.

Haven't seen Margaret or Jesse so don't know if Roscoe won another leg on his championship or not.

Glad that Wendy's P.J.'s were all together, the sales girl just gave me an extra pair of panties. So, happy that Barbara is pleased with the other pair, they still had some like them so I got Wendy Lou a size ten. You know she has gained so much weight since she had her tonsils out.

Walt said that Heather had a nice birthday, they didn't have a party for her and she was a little unhappy about that. One of her girl friends spent the night with her and so he took them horseback riding, he rode also and got kicked by the horse. Nothing serious he said but did have a black and blue place on his knee. The horseback ride made Heather very happy.

The social security check came yesterday, but guess you will need to sign it before it can be deposited. I don't think they will take it with the stamp, I really don't know. So we will just put it away until you come home.

Heaps love to all.

Darling:

Well, things running as smoothly as they can with four children around. April is getting so she wants Gramme to take her down from the table chair when she eats. She is a doll and so good natured. Mark is a big man most of the time. School is out tomorrow, Fri., and then they will be able to sleep later.

Sulu and Rye got so tired, she wouldn't eat yesterday, just rested, so I locked her up last night and she was OK this morning. They will not play with the ball or mouse, just each other. They are both a circus.

Han began to sew a little, mostly patching so far, will get to the real sewing in a day or two. Plenty to do in the patching line. It is not hot by a long shot. Oh say did I eat cherries. Remember, you were not here to say rag. Didn't hurt me at all. Of course, I did not eat too much at a time. Kays berries are loaded, but just a few ripe now and then. The children get them, if the birds don't. Kay is so good with the children. He just went to the store to shop. Took all 4 kids along.

Oh yes. Don Bowden a Calif. junior won the mile race last Monday at the relays at Stockton in 3-58-07. Kay & Epeie were thrilled to have seen it. Beape love, Anna.

Big news here is a championship in baseball game - Play off North with South Part of League we won 5-0 on 1 hit so I feel pretty good. Have a good time Kay

June 9, 1957

Dear Uncle Kirby,

I was so glad to get the postcards. I'm following your travels with great interest.

Friday night I went to see "Around the World in 80 Days". It was extremely interesting and had many good shots of the countries. I especially enjoyed England and France. Spain was very colorful.

Yesterday was my 20<sup>th</sup> birthday. Can you imagine my being that old? It just doesn't seem possible. I really don't feel like an "old woman".

The rains are still coming. Here in Rosenberg, we have even had a few tornadoes — they didn't touch the ground luckily.

Because of the rains, the men can't get into the fields to measure the cotton. As a result, I haven't been working hard at all. I'd rather be very busy than doing nothing though.

Aunt Luis and Uncle Billy, Bill, and Pat, were down for dinner last Sunday. He had a nice visit with them. I hadn't seen them in a couple of months.

Our Sunday School here at Thompsons is doing very nicely. We had a nice crowd

this morning. I am playing  
the piano again and teaching  
a young people's class. Then we  
go on to church in Richmond.  
The ride in an air-conditioned  
car which makes the ride very  
pleasant.

Momma and Daddy are  
doing fine. Poppa gets tired  
easily but that is to be  
expected. He doesn't have to go  
back to the doctor for six  
weeks.

Take care of yourself.  
I remember you in my prayers.

Love,

Mary Jo

Dear Grammy

Sorry I could'nt write you on the  
trip, But I just could'ent find the time.  
I had a wonderful time even  
+ it's still + it's still

Dear Friends

School is just about over and I hope to post.  
The marching we do at school is the hot  
fun is just about to much for me because  
we have to march in certain way.  
School work is getting harder every day and  
hope it we be gets down. After school  
I hope to get to work up on the hill and  
getting it to look real spord.  
Love Ronni

Dear Company,

I bet you're having a marvelous trip.  
Someday I sure would love to travel to  
Europe myself. These last days of school  
are really going slow. I have a lot of work  
to hand in so I will pass at least some  
classes with good grades. My social life  
has really been fun and I have

sets of sets

recently been attending a  
all miss you and hope all  
to us. I hope you example  
seeding us words. They are  
and take care of yourself.

Sinden. June 10. AM.

Darling:

Well, Kay is surely enjoying the end of school. However, he starts today to have 4 mornings a week recreation. Friday night he made cinnamon rolls. Not his best though. He is out of practice. Yesterday he made apple, and berry, pies. Also homemade bread. Both excellent. First berries. Look fine.

You should see him mow the lawns. He rides, and has the wagons hooked on behind with from 2 to 4 kids riding. Wendy is not riding so much now as she is too big for such childlike fun, but sometimes condescends to take part.

Rained all day yesterday and you should see our Lulu. She and Rye get out in the garden part and get all muddy, and then chase around and roll all over each other and dab with dirty paws. Consequently, Lulu looks brown. Rye doesn't show the dirt, but is just as dirty.

They tussle over a bone or a <sup>dry</sup> weed or a rag, and have great times. Sometimes they are both a circus. Poor old Major has a hard time with 2 to contend with.

Boy, you should have been around yesterday when all 4 kids had to stay inside. They got on each others nerves and shouted and screamed and fit like the very dabbles. Such a time. Finally came bed time and a little peace and quiet. Kay and Epie take it in stride, and I didn't do so badly myself.

Time really flies, and I don't get as much done as I want to. Can't do too much sewing when I'm Baby-sitting, because I need to keep an eye on them.

Miss you. Heaps and heaps love

always yours -

Alma

Darling:

Fortunately for Ray, his summer program is from 10-12 and they don't have to get up as early as during school, and Friday is free. I get at eleven to let Lulu out, and usually have my breakfast before the children are around. Lulu is doing much better since I lock her up at night.

After I fed the pups I got a big colander, (strainer) and went out and picked berries. Set it hopped up and running over, and when I got in the morn was up -

Conference is going on in Stockton, and they went in yesterday afternoon and got Charles and brought him out to look at places to store their things until the house they are renting is ready. They are going to have about a month after giving up the Sutter place until the other house is ready. Charles looks pretty good, but he is bent and very slow, much like Dr. Mendenhall was after his accident. He had a prostate operation and it has affected him much like a woman at change of life. Edna was not feeling well enough to come to conference yet and also she had to clean out the kitchen up there so it could be painted -

Am not getting much done in new sewing, but have Rose done a heck of a lot of patching. I guess that serves the purpose just as well. Am now ready to begin sewing some blouses for the girls for summer. I guess I can take some stuff home to sew.

As of the present, we are to pick some cherries this afternoon. The trees have been picked commercially already, and this is gleaming. I guess these will be for free -

Be sure and keep everything locked up when you go to Russia. Heaps and heaps love always yours Alma.

Linden June 17 - 57

Darling:

It is 8 am and they are all still asleep. Have had my breakfast and fed Rye, but not Calu, as I want her to have a better trip. I shall have to waken them soon as I have a couple of things to do in that room before I leave, and I want to get away at noon. John sang on Ed Sullivan's show last night and they went to a friend's house to see. Left April with me as I didn't feel like going, and she cried most of the time because she saw them all go but her.

Did not get too much done, especially this past week, as there were cherries (free) to can and berries to freeze. Pitted some of the cherries and made some jam for Epie. Have some sherries to take home. Pretty ripe but hope to get through with them in the refrigerator. Froze some ice in milk cartons to put in with them. Mairie will love them.

Haven't had letters this week so suppose they have gone home.

Heaps and heaps love  
always yours

Alma.

Dear Kirby:

I have been waiting for Perry to write, but he just doesn't seem to do it. So, guess I had better get a letter off to you before you think we have forgotten how to write. (June 18)

The week after you left and the day after Alma left to go up to Kay's we had four days of over 90 degrees but since then until this Sunday it has been cloudy and cool in fact had one rain about  $\frac{1}{2}$  inch. Sunday it started to get hot again and yesterday was 100 in Los Angeles, supposed to be about 97 today and cooler tomorrow. We have really been putting the water on.

Perry picked three boxes of berries last Friday and I made them into four pints of jam. Also jamed another flat of strawberries and put one flat in the freezer since you left.

Alma arrived home last night hot and tired, Lulu was ~~very~~ exuberant with joy to get home. Didn't talk with her much since it was around 9:00 p.m. and I was thinking about bed. Will have a good talk tonight.

Margaret and Jessie's dog Roscoe, earned another leg on his championship and needs only one more. He just missed a cup by one point at the big dog show in Pasadena. They are getting along fine and said to be sure and send their greetings when we write.

We are looking for Bill and Madge to come down next week about the 23rd. Said that Nellie and Petehad some fish for us and they will be bringing it down. We will be glad to have the fish.

Perry has been having a time with his asthma and sinus, just doesn't seem to get rid of the hacking and coughing. He seems to be tired all the time, but I can't get him to go see the doctor. Will try to get him started on ~~less~~ iron pills again.

The American and National League races are going strong. It has been sometime since the Yankees have been out of first place at this time of the season. Will send you the clipping on the standings in the next letter. Vancouver lost five out of seven games to Hollywood this past week so they have dropped out of first place, San Francisco is now on top.

Sounds so far as if your trip is very interesting and rewarding. If you should see Wilfred Wellock again give him my best. I doubt if he remembers me but I took him to a meeting when he was here. We are looking forward to having Reginald Sorenson here this fall (I believe it is he comes).

We look forward eagerly to your letters. We will try to be more prompt in writing to you.

*Much love*

*Perry + Marie*

Dear Mrs. Page!

Thanks for the recipes you sent to me some time when it is cooler I mean to try them. We are having some hot days and I hope you are cooler.

I am enclosing the peanut butter cookie recipe. Our Swedish nurse who bakes lots of cookies told me she thought I did not use too much flour but she thought I did not use enough shortening. She tells me it takes a cube of butter or margarine to make  $\frac{1}{2}$  cup shortening. She always uses butter in her cookies and they are very rich.

Gale has had word from your husband. I hope he stays well during all the trip.

Thanks again for all the jams and fruit you bring to us.

Love,

Florence

Dearings:

Well here I am home again, and wow! is it ever hot! 104° 2 days. 91° in living room. Had fan going. Even hot at night. Not nearly as hot at Raigs, and when it does get hot he has the cooler. Funny thing, when I started, the car was hot from sitting in sun, and it soon was cooler from the breeze, but Sally and I were uncomfortable. We soon had to stop for gas, and I started the fan, and what do you suppose I found? One of the babies had been in and pushed the heat button over after that it was better. They had just put out a big fire in center of Modesto across track. Big fire engines still there, another one on place. Fire engines still there, another one on Ridge Route. Many acres burned, but out, yesterday May was out, and Sally wanted TV on, and they showed Big fire in Griffith Park. 300 acres in an hour and still going. This one was from truck turning over and burning.

Our berries have just started, but our tile lillies and gladiolus are going full tilt.

Hope this get to you before you leave Berlin. Must get ready to let Marie take this in as we went to town yesterday. Brought home cherries and are they ever good! I gave some to Mary.

Heaps and heaps love

Always yours

Alma

Dear Alma -

Is ordering how your trip home went? I'll bet you really appreciate the peace & quiet these days!

Poor Rye was a lost soul - Sulu gone & Kay took Major over to see Penny the afternoon you left. When I brought Major home the next day - Rye went crazy with joy! Major didn't do so well this time. His back must be bothering him. He couldn't stay up on Penny long enough - leg gave out - so I brought him home to rest up. Kay took him in to the Animal Hospital with Rye, but Doc said he couldn't do anything to help the situation. So - we took Major back to Rivatelli again last night & chose for the best. That place is large for the best. Rye's neck was swollen from his previous shot. Vet said it happens sometimes.

I miss you. - I still keeps saying "Grammy go bye-bye with Ollie in car." Boy is it wonderful

to have all the mending done! Susan  
do appreciate all you've done & all  
the nice things you brought for us.

Tay had a head attack of some.  
Had to have a physician visit &  
sleeping pills. His head was really  
leaving. He & Wendy will go up on  
the train to Marysville tomorrow  
noon & drive the pills back in the  
evening. This stuff is coming down  
on Sat. The girls are really enjoying  
their swimming lessons - hope they  
learn something.

We see that S.A. had 104°  
the other day. What's going on down  
there? That's only supposed to happen in  
the Calif. Valley! It's cooled off here  
now - but Tuesday was hotter than  
yester! 102° in Stockton.

A girl has a cold & last night  
worse me up with the old crampy  
fever. So I turned on the hot  
shower full blast & sat with her  
in the bathroom - Then let the  
steam go into her room. After that  
she slept O.K. This is called exasmatic  
cramp & comes on with a sudden cold  
during the night. She seems O.K.  
today, but not much pep.

# DETROIT-LELAND HOTEL

DETROIT 26, MICHIGAN

How is everyone down here? And have you heard from Tilly? Did the cherries stand the trip O.K?

With all the running around for swimming & the Thurs. recreation for Wendy & Bonnie I still haven't made much headway cleaning house. Did get the front half done yesterday tho'. Wonder if we'll be able to settle into a routine soon. I find myself almost wishing school was in session again & this when I was dreading for summer to come. Seems ages since school was out & I only been two weeks!! Haven't picked berries for jam yet & they say I'd better or the bear will bite them. This cooler weather should help tho' & the paper says it will continue for a few days.

Thanks a million for being so good to us & putting up with all the racket & disorganization!

Much love from us all

Dear Kirby -

Hope this reaches you in time as well as Herbert Jehle's letter of introduction to Prof. Kapitsa in Moscow. Herbert has known him for 20 years. Louis Pauling is somewhere in Europe himself.

We're all at John & Mary's for supper. Going to see Schweitzer film. Some fun. Will have all write a greeting.

Sorry - That's as far as we got last night - had to run - The film as excellent - Much better than the reviews had indicated, Walt felt. Ron went with us - while Heather & Sally stayed at John's till we got back. (Suey was at beach)

I guess the summer will fly as fast as last winter did - We leave for family camp a week from ~~today~~<sup>Monday</sup>. We took a late for the Taylor Beach cabin also. The Peckham and we will share it the 2<sup>nd</sup> week in August. Ron's birthday will be the 16<sup>th</sup> of July, till 23<sup>rd</sup>.

It was good to see mother again. She seems to have enjoyed it immensely.

Walt & Ron have gone back up to Hyllared to try to get things more ready for the workcamp.

See you at Radford

My dear Anna:-

We are off to-night for London  
but despite the change into new experiences  
I would like to wish you to thank you again  
for the slip you sent down Emily that  
was still blossoming and delights us  
all. You never did a kinder thing. We  
left our last jar of figs just before we

special occasions for they are so good.  
But even more I want to put down  
one or two things about Kidz's book that  
are still in my mind. I pictured  
one and took one on many things I did  
not know, not only about Kirby but  
about Sherwood as well. My first  
response when I finished the book

In Cleveland its "The Hollenden"

was of breathlessness for so much  
is packed in those pages. I feel  
at times that it was more a catalogue  
than a narrative but I don't see how  
he can get all those jingle buried in  
any other way. This is the only way

I have told some of the jingle groups  
on your hill-top for that is a forerunner  
of a trend in spiritual sharing and  
people need help in understanding  
both how to do it and its effects.

If anything is doubtful I will suggest  
it to the presidency of family — only  
those who have definitely influenced him  
should be solicited to word that.

It is the story of a thrilling experience  
in a thrilling time & ought to be  
published. Do the Presidents have

Well, yesterday was a typical deep South 4<sup>th</sup> of July. Hotter'n Blazes and then some. It got so hot, even with the fan on, that I had to go out and sit under the olive tree. Not much good for getting anything done these days. When it is cool enough, we spread water over the place.

Have been trying to get some sewing done for Ray's kids. Sew a little in the morning and do the housework in the afternoon. Sent them several blouses Wed. Mary and Walt are at the family camp this week, all except Judy. She is staying at night with a girl friend. Heather was out a few days last week, but did not get much done.

You just ought to see what I eat at lunch time! a salad twice as big as when I give you a salad plate. Mine is a big bowl.

I told you Sherwood is at Victoria Plaza Hotel, nothing from Rinehart. Francis is working on material. Called yesterday. Will talk to Walt next time I see him.

Everything going along as usual here. Although the 4<sup>th</sup> was a striker (102°) without a breeze, it has been much more livable since. Cool mornings, warm days.

I had to borrow \$20 from Marie to cover an overdraft the last part of May. The insurance with interest and all, came to \$53. The Social Security and pension cheques came on the 5<sup>th</sup>. Sherwood's ck came Saturday. Will deposit it today.

Am getting some more sewing done for K's kids. They need it. After that will do some for myself to replace some of my old dresses that are falling apart, and which I am using to beat the heat just now. Much ventilation in them.

Really keeps us busy watering these days. You should be here to help in the water. I can hear water running somewhere now as Perry pours it on the trees.

Do tell Judy and Douna that I was still in Linden with the grandchildren when they graduated, and I had my hands pretty full just then, full of grandchildren.

Nothing yet from Rinehart, as I have already told you. Louise has probably told you about her letter of criticism on your mess.

Hope everything goes well and you are keeping fit. Hope and traps - love always yours Anna

Dear Uncle Kirby,

The cards are just wonderful. It's very sweet of you to think of me so much. So far, my favorite card is the one from Paris.

How was Switzerland? I imagine that would be my best-liked country. Have you gotten to see any of the watch makers? Jane went to Europe last summer and she enjoyed that most of all!

A group of us (15 to be exact) went to the beach today. We left home at 6:30<sup>a.m.</sup> and got back about 4:00 p.m. I didn't stay out in the sun too long. However, I did get nice and red. It is not painful (guess I shouldn't venture judgment so soon). This was the first time I'd been to the beach in a year. I really did enjoy the day.

I do hope this stationery stays together until you get this letter. I only use it for writing special people and was most anxious to write to you on it. Usually it goes to A + M.

Did you get my letter I sent to Germany dated the 9<sup>th</sup> of June?

Remember the card from Poland which you at first addressed to Aunt Iris? It was missent to Needville, Texas, after that! I consider myself lucky to have ever gotten it.

Momma and Daddy are well and send their love.

My prayers each night are that you will have a safe and worthwhile trip.

Darling =

Have had Heather and Sally for a couple of days. Ron is at camp, and Mary and Walt wanted to get some work done around their place. Marie stopped by and picked them up Wednesday evening. The only trouble was that Heather forgot to bring her shoes, and could not do any work.

I thought I was overdrawn Thursday and went down to borrow a hundred for 30 days. However, my figures must have been off, as there was no note from the bank, and to top it off, there was a check from Episcie, and also a \$30 check from the council for the prayers for the year, and so I deposited them and saved the day.

I think all your Russian cards came through, and letters too. Should have something today. My best to the gals.

Heaps and heaps love

Always yours

Paul called yesterday, saying his mother had finally passed away the night before (mon) Funeral will be

Thursday in Riverside at 10 am. Will go.

Things here pretty much as usual, cold at night and hot in daytime, which is lots better than having it hot at night.

I don't know if we will get any peaches or not. The birds are eating them before they begin to ripen, small too, in spite of water and fertilizer. Oh well, they are 20 years old this year, (the white ones). Never saw so many birds in all the years. The blue jays are always gobbering.

Dearest:

Quite unexpectedly we are making a substantial change in the dates of the 1958 Tour. It now seems possible that a week's conference can be arranged in Germany which will be participated in by ten Russians, ten Europeans and ten Americans. The European Baptist Congress meets in Berlin August 26-31, and Russian delegates are expected to attend. Therefore we are trying to arrange a conference at Freundschaftsheim August 1-7. And so we are changing entirely our itinerary in the hope that this will be possible - and that non-Baptist delegates may be present. Therefore please ask Francis to substitute the following itinerary:

Weather has been pretty good but it is going to be hot today.

Gale and Florence and two women neighbors, come over Friday and had lunch with me brought everything along. They had a good time and I also got the house cleaned.

Going over to Maui for supper Thursday night. Have been sewing and working outside some and taking care of Lulu. She will be sooooo glad to see you come home and take her walking. So will I. Be glad to see you home again, and some. Heaps long always yours

not - hope you had a nice one.

Dear Grammy,

Happy Birthday! I hope you are having a fine

Time over there. This week-end dad, Ronnie, Sally, and I are  
going up in the hills. Hope we are going to have fine time,  
a week from today we leave for the beach. Hope we are going to

Hi Dorothy and Happy Birthday  
love Ronnie

August 2, 1957

Dear Kirby:

We seem to have been very neglectful in our writing to you on this trip. And to have not sent our birthday greetings so that you would have them on the right day. Any way happy birthday from us. We will leave a package for you to have when you get home.

Perry has still not been feeling very well. Has had a fungus on his big toe which has bothered him and then now that it is about cleared up it has started on his left thumb and is spreading on the next finger. Dr. Cook is putting a special light on it and painting it with some dark purple stuff which looks very bad.

We will leave for the lake either the 11th or 12th of August and will return on the 29th or 30th. We both are eagerly looking forward to the trip.

We have been having weather up in the 90's this past week and the weather man said it might cool off a little tomorrow.

I took Mrs. Levine to the train yesterday morning, she said that this will be her last trip up on the train. The next time she goes up some friends will drive her and they will bring Ed home, Sept. 3.

Oh yes, Shadrack has five kittens. She had six but Lulu found them before we did and killed one. Poor Lulu has been having her trouble - we are having a hard time trying to keep her from digging in the lawn.

We have lots of people out on vacation here at the office but starting next week there will be more, even so some will be returning. I have decided to take only three weeks now and perhaps next year take five weeks at one time or split it up. Perry is talking about a trip to Houston and on to Florida up to New York, Philadelphia, Washington D.C. etc. We will have to see how much money we save between now and then whether we can do it or not.

Margaret and Jesse seem to be getting along fine haven't seen them for two weeks. Their dog Roscoe won his championship papers and they showed him last Sunday at a dog show in Santa Barbara with the hopes of winning some awards. They will not be going to the lake with us this year, in fact they have taken one week of their vacation already and will take the other one later. Jesse was sick with the flue so they just stayed home.

Connie and Alice will go to the beach again this year, I think they said right after labor day.

We are anxiously awaiting your return so that we can hear all about your trip. Everyone is asking me questions and I keep saying we just have to wait until you return to find out all these things.

Had a brief chat with Helen Beardsley when she was in the office yesterday, she said that she had a card from you.

Much love  
Marie

August 3 - 1957

Darling:

How does it feel to have a birthday away from home again? I must admit, I'd rather have you here then come. Another heat wave has just broken a little, but nothing so far has been as bad as the July 4<sup>th</sup> one. Have just read in the U.S. News & World Report, what is causing the trouble. Seems the jet air stream has moved from way down south in U.S. to lower Canada. This caused the early hot weather and it has stayed there, also drought in East. I have subscribed to U.S. News & World Report from an offer to old subscribers for half a year.

Today is "Corn Festival" in La Habra, Perry and Marie have gone down early, so Perry can get a haircut (\$2.00 now) and then go to the doctor, and Marie will watch the parade. Guess I'll have to go down later and mail a couple of packages.

Oh yes! the check was just 23 cents less than last quarter.

Heaps and heaps love and happy birthday.  
I'll kiss you when you get home

as usual, we are having much cooler weather after heat. In fact I have on a sweater, which I shall wear until we go shopping in an hour or so.

Before I forget it. Hale wants you to come over to his house August 22 or 23 from 2-4 to talk with several friends. Can do?

Ed Sanders wants you to talk to the monthly meeting Sept 7<sup>th</sup> at the afternoon session. Since he wants to know right away, I am telling him you can, that I'll take a chance on it.

Nothing from Rivhart. No more dates for series. Guess everyone is away for summer.

Let me know now what time  
your plane is to arrive in L.A.

Perry and Marie leave Saturday  
night for vacation. Walt & May  
also leave Saturday. So I'll be on  
my hilltop and Mrs. Sevire on her hilltop  
only I'll have three dogs, and she  
has a lot of cocks. Also, we don't  
have anything worth stealing.

Am keeping busy sewing, but

Up to now have been sewing for

Darling:

Well, Donna called last night and told me you were OK and all. Sure was nice of her to call.

Everything here same as usual. Cold nights and hot days. Foggy, smoggy, then some. Took Lulu to the vets yesterday for spaying. I set her tonight. She was lonesome yesterday without her pestering me to death. Before leaving home, she got an idea she wanted to get in my lap, and every time I sat down to write to Epie or read Thursday's add., she was right there trying.

Yesterday was Marie's last day at work and today they are feverishly trying to get ready to leave tomorrow for the lake. They return Thursday night before Labor day.

Never saw so many birds. Last night Marie & I saw a Phainopepla and talked to it a while until a hummingbird chased it.

You can't be half as anxious to get home as I am to get you home. May & Walt & family at Laguna until Friday. Heaps and heaps love and then some

Dear Kirby And Alma!

Just a note to tell you that I'm glad you two finally got together after your twelve weeks of "hopping about", Kirby. As for me? Well, I've managed to keep rather busy and am again back in the "swing of things". Last week was a social week, Monday as you know was the Niemoller luncheon, my it was good to hear him again! Tuesday, I had lunch and talked over Europe with Charlie Mackintosh, Wednesday the same with Wilson Riles and then a trip up Mt. Hollywood for two glorious hours with Allan, Thursday I showed my slides (which were quite successful!) to my family and Friday an F.O.R. Metropolitan Executive meeting. This week I buckle down to business and tackle those dreaded notes.....ugh!

So glad to get your note and tour resume, Kirby. That tour sounds fascinating, must take one some time!.....???? When I told Allan & Elizabeth that we spent 10 days (daze) at Fruenschaftshiem they groaned....I agree! That was tooooooo much! What a wonderful time I had in Edinburgh, I wouldn't have missed it for the world.

Met a nice pilot on the trip from N.Y. to Chgo., I flew "up front" in the control room on the entire trip, beforehand we had dinner together and he showed me around N.Y., much fun!

Well, it's 12:10 a.m., yawn and time to hit the hay. Be good, and I hope to see you soon.

Much love always,

*Louise*

P.S. I broke up with Gordon. Too long, no see!

74 WEST MARSHALL ROAD  
LANSDOWNE, PA.

Dear Kirby & Alma:

Aug 29/57

It sure was good hearing from you. Ted and I often recall those many pleasant times we have had together.

When Betty's school was out she took us up to East Hampton, Conn. for a week's visit with George and her family. Their little boy Gary is now two years old. He has a large black German shepherd dog that is his constant companion. When Gary finishes brushing his teeth in the morning, he brushes Carrie's "dog" teeth with the same brush. How shiny can you get?

Alice's husband passed the bar exam this summer and hopes to practice law in Delaware Co. They have just bought a new house and plan to move in Oct. 1st. Their little boy Stephen is just a year old and a mischief maker of there ever was one. I'm taking care of him this week end while they celebrate their anniversary. I don't think I can wear him out, but I'm sure he will wear me out before his parents return.

Betty spends her summer on a little farm up Maryland, where she and her friend Annie Holly, day lilies and every flower that ever

produced an orchard. Our neighbor  
drove us down there last week.  
We hadn't been down for over a year  
so we saw a great many improvements.  
I think they have close to a thousand  
day lilies, each one with a name tag  
on. They tell me there are two thousand  
varieties and I'm sure they won't  
be content until they have one of each.

The hot dry summer didn't do much  
for my garden but after the nice  
rain on Sunday it looks pretty good.  
The successful flower of this year  
is the impatiens plant. I started  
with one small one about a year  
ago and now have fifteen all  
bursting with color. How are the  
poinsettias? Glad I got some good pictures  
of them when they were at their best.  
Give our greetings to Marie and Perry.  
I think Marie was coming to Phila  
before long, we are still looking  
for her and hope she hasn't given  
up the idea.

My spare moments are spent crocheting  
a table cloth when I'm not playing  
solitaire with Red or knitting sweaters  
for my grandsons, then of course  
there's the ever present problem, when  
and what to eat, which comes up  
about three times a day. Haven't  
succeeded in putting any weight on  
Red so will have to try some new menus.

Much love and greeting to all  
your family

Esther

Sept. 20, 1957

Dear Aunt Alma + Uncle Kirby,

Are you all recovered from the trip? Aunt Alma, I'm sure you've had practically as much excitement and work as Uncle Kirby did. I know that you both enjoyed it and received a blessing from it. Aunt Alma, remind me to marry such an intellectual and famous person. Then maybe I can go to Europe sometime.

I've thought of getting a job in an embassy overseas. I imagine I'll end up working in Houston and enjoy it. That's life and I love it. Had a letter from home this am. Momma was at Anderson for her check-up. They congratulated her for

getting along so wonderfully.  
She has to go back in February.  
That will be 5 years since  
the operation. I am so  
thankful and relieved.

I really had a surprise  
when I went to work.

Dr. Brown has changed things  
around. I now have an  
office of my own with the  
added attraction of air-  
conditioning. They repainted  
my desk too. I really feel  
important now.

Today was the hottest  
day ever. Not a breath of  
breeze anywhere. I'm glad  
two of my classes are in air-  
conditioning.

We just have oodles  
of room this year. Just two  
in the room makes a lot  
of difference. I even got

one of my petticoats in the closet! That's something, isn't it!

I'm studying hard this quarter. All three of my courses require about 20 pp. each every night. Of course, there's outside reading also.

You all write when you get a chance. I'd love to hear from you.

Love,  
Mary Jo

P.S. We finally loaded down  
+ got a T.V. set. Bought from  
one of the teachers who was  
leaving. It was such a good  
bargain that I had to  
capitulate. For, of course,  
enjoying the sports that mainly  
relatives & I & the children don't too - but we  
limit their viewing time + programs.

Sept. 20

Dear Alma & Shirley -

I've certainly been  
behind the 8 ball these past few  
months. Sept. in particular has been  
chaotic. After it's over - I'm refusing  
all outside jobs - I've had it!

Our annual Fashion Show came  
off Sept. 14 + no one could be happier  
that it's over. I had the responsibility  
for stage + ramp decorations + I was  
a time consuming job.

Monday - I have our circle here  
& Sat we go to S.F. to see John's  
show. Mean while - I am  
involved in setting up a  
nursery school. Ten of us are  
doing this. We are using the  
church Sunday School room +

donating money & time to make &  
buy all the necessary equipment.

I really wasn't much in the  
mood for getting into a project  
like this - however we feel that  
Mark can benefit greatly by the  
play with other children his age -  
so I'm up to my ears again.  
We plan to start October 1st.

Alma all your wonderful  
sewing for us has been greatly  
appreciated. The aprons are  
wonderful & will be a big saving  
on clothes.

Now sit down & hold  
your breath - you will again  
see grandparents on or around  
the 15<sup>th</sup> of February. I can  
just hear Alma say "Oh, no!"

My 1<sup>st</sup> 3 months were pretty  
rocky - but am feeling O.K. now.

Have really taken my friends by storm - because for some reason this time my condition has not been apparent until just now. I wore maternity clothes for the 1st time a couple of nights ago to Bridge Club - & you should have seen the amazed faces!

The children are delighted - of course we are all looking for a lady. We won't pretend that this one was planned - it wasn't. I was quite dismayed at first, but Kay thought it was great. I feel emotionally adjusted to the event now & am actually quite excited about it. Babies are wonderful - in spite of themselves I'll manage o.k. This will be our biggest age difference - but 3 years is not too much of a spread.

April is now catching on

to potty performance & is off the bottle - so that will help. She has matured so in the past 2 months. You'd be amazed. Alma says everything. I feel it will be good for her to be without Marla 3 days a week (nursery school will start with just 3 morning per week) She plays alone very nicely - but he needs some to play with & so the usual squabbles.

Barbie had a sad 1<sup>st</sup> day at school. Much of it my fault. I felt she would make the transition from home & me more easily if Hay took her - but it didn't work out this way. She didn't want to leave. So - after sobbed & clung to Hay. So - after re-appraising my stiff-upper lip policy - I decided to give it my all. So - I went with her to school & stayed as long as

she needed me. I'd worked  
beautifully. The 1<sup>st</sup> day I stayed  
a half hour & by the 5<sup>th</sup> day  
just left her at the door. From  
then on she went with Wendy &  
Kay as usual & now is eager to  
go & seems to enjoy herself. There  
are 31 in 1<sup>st</sup> grade - so the  
Board has lined an additional  
teacher to help.

Don't know what I'd do  
without Helen. She left Mark &  
April each AM when I ~~went~~ tools  
Book to school. And in a  
million other thoughtful ways is  
always on the spot. She still  
is not pregnant - but ~~still~~ keeps  
hoping. And here I am weasing  
see her maternity clothes. Gile  
seems to be happy at 1 one.

While Kay was gone this  
summer I had Sherry & her  
children here for a week & then  
Cloris & baby stayed with us

when Fay & Jerry went fishing.

Slerry & I really got a chance & job — we did it up brown. With all due care it got a little hectic at time - but was well worth it.

Would you share this letter with Walt & Mary? I have such good intentions - but know I can't begin to write letters until well in Oct. Give them our best love.

Mary & John know nothing about the expected baby - so I will be fun surprising them this Saturday. Just in case I get this mailed soon - don't say anything to them - (same for Walt & Mary if they are writing) - if you are writing to them soon.

This may change our plans at Xmas time as I'll be only 6 weeks away from birth (if the Doctor's date is correct) But - I hope we can make it.

Much love to you both —  
Fay & Essie

Dear Kirby & Alma:

The train on this paper makes me think  
of you & your wonderful trip and how  
glad we are to be represented abroad  
by people like you.

We did a trip over about this  
summer by car to California via  
Texas. (It totalled 8000 miles!) Some  
trip! I had a chill on my leg (8 months,  
I guess or + years) every hour we were on  
the road! But we had 3 wonderful  
weeks with my folks who are living in  
Stockton, Calif. now. We were so tired  
of travelling - unpacking & packing  
that we did no visiting or stopping,  
except with my brother in San Diego,  
my sister in Bakersfield, & Stockton.  
We left June 20 & returned home Aug. 19!

Our Elizabeth will be 1 year old

on Mar. 22 - That makes five and  
"That's all, brother!" ! Ha ha!

We are all fine - Hope you  
are also - Greetings! Walk +  
Family - Phillip - Uncle too.

Busy with the new school year -

Dear Folks —

So Luke is 50 lbs !! Our scale is off - so we can't weigh Reg - but he's almost as large as Major. Major isn't as nice & doesn't like these days. Guess he's jealous. We did have a grand time with Marg & John & Walt & Mary. The Show was wonderful - best we've ever seen of John's. I thought they would hear notice that I was in maternity clothes. Sat thru the entire show with Walt & Mary - even talking & laughing outside during intermission without my coat on - & still no "take"!!

MORE PLEASING - THAN EVEN THE MOST EXACTING GUEST EXPECTS

We're glad that you are happy about  
the additional grandchild - this it  
won't seem right not to have  
Alma on hand at that time!

Still hoping to come down at  
Xmas time, but if we can't it  
will be great to have you  
here either time you mentioned.

I really look pregnant now -  
but so little sign of life that  
I am somewhat concerned.

Perhaps this will be a March  
baby after all. Am due for a  
checkup next week & will see if  
the Doctor can hear the  
heart beat then.

The High School has been  
closed due to Asian Flu. Almost  
closed last week. Fay was out  
for 3 days - but just with heavy  
cold. I've had one for several

weeks. The rest of the family are getting it now - but not as severely. So we hope that we have escaped the flu.

Alva - I am trying to plan Xmas stuff ahead this year as I may not feel like running to town too much in December! So - would appreciate any suggestion for you + Derby & Berry & Marie. I include also things ~~for~~ that Fay could make - as she may have time if we get started soon enough. Also suggestions for Margaret & Jessie - if Marie has something in mind they would like. Mother & Dad are doing better & are enjoying Sender very much.

All our love -

OUR AIM IS TO RENDER SERVICE  
A LITTLE MORE COMPLETE - MORE HOSPITALITE  
MORE PLEASING - THAN EVEN THE MOST EXACTING GUEST EXPECTS

P.S. - Barbie is enjoying school now & is also doing very well in reading. Our small cooperative nursery school has started now. Mark loves it & it is wonderful for April to be by herself a few mornings per week. However - I has its draw backs like finding a place to keep April on the days I'm working etc. - & esp. bad when any of the children are home sick. I would gladly give it up - but feel that the set up is what Mark & April both need just now. So it goes.

Did I tell you that Major fathered 8 pups again about 8 weeks ago? He got the pick of the litters for Coke. No whites this time - & 5 females! Believe this is the end of pups for Major. He's gentle down in the back & shows his age as ever - Epsie

Dear alma

Just a note to let you know I am thinking of you too. It has been so hot that I have stayed close to home.

Have you seen much of your children & grandchildren this summer? I would love to see <sup>Kirby</sup> him doing his washing, but he will make it ok.

Glenn went to the Boy Scouts from home at Valley Forge this year and called me long distance. She was surprised but pleased.

Be glad when Kirby gets home, the 19th is not too far away. Love  
Doris.

Paris Wednesday 7 AM

Dearest:

Soon to leave for Geneva.  
We had very fine program  
in Versailles and much  
sightseeing here. The group  
is in splendid spirits.

I rented a typewriter  
and it has nearly  
driven me to drink -  
several letters are  
located in the wrong  
place, French style!  
Finished rough draft  
of my six-page report

letter. After our time  
with Martin Niemöller -  
at Freundschaftskabin will  
send it to you by airmail  
for offset printing.

It is really  
amazing how grand  
I am feeling. Rest,  
sleep & hells!

I love you dearly

Your style!

Wished to Kirby draft

of my 20-page report

Dear Alma -

The birds are  
ticked to pieces with their  
liverworts. Fit beautifully!

Thanks so much. The  
dress for April looks real  
cute & she may grow  
of it. It comes in about  
pink shorties - but  
may be best this way - as  
I can take it up & next  
year let it down.

April needs the under  
pants more than <sup>the</sup> others do -  
as we have finally gotten  
the cat so she'll be  
needing quite a few.  
She doesn't produce yet,

just carries the cat around  
calls it her "dish"!!!

So — the smaller pair  
of panties are fine for her  
in legs - but are too  
long. Should be about  
8 inches deep from crotch  
to waist →  & about  
18 inches around waist  
with elastic. About like  
these little blue ones you  
made for Wendy. If too  
deep from crotch to waist  
they come up to the fat  
part of her Tummy.

Have had interesting  
card from Tinky. So  
happy he is feeling so  
good. Weather has

-3 -

cooled off here too.

Grace Machado et al  
are now moving into  
their new house - so we  
hope the folks will be  
able to move before the  
 $25^{\text{th}}$ . The heat has been  
heard on my folks & no  
cooler ~~at all~~ at the  
garage.

Tay & I are busy  
with garden stuff. Have  
the front looking good -  
now are concentrating  
on the back. Meanwhile  
- house goes on!

Have finally gotten  
a few things in the patio

planter & it beginning  
to look less like a  
sand pile or mud  
hole. Now to keep  
Rye out!

How's Sulu? Rye  
wishes she were here.  
Major has not gone  
back to playing with  
him as he did before  
Sulu came. Poor old  
Major - he's been down  
in the last & doesn't  
get around so well  
now. Seems happy tho.

Say - if you leave  
any more of these  
yuccas - save em  
for us.

Can you plant fern  
from cuttings? And  
if so - any special  
trick to it?

At the nursery  
yesterday the gal said  
something to that effect  
in passing & we are  
wondering? Nothing  
about it in the Garden  
Book.

Gotta hang out  
some diapers — A big  
buy from all of us.  
Having all these babies  
certainly has given a lift  
to the gals wardrobe!!

Much love,

Epsie

Sunday Leningrad

Dear:

Arrived after an overnight train trip from Moscow. Had sleeping compartment for four.

Bent you two letters and a postcard from Moscow. Sent everybody a postcard and am doing same from here.

Washing is easy - no problem. Don't get any ideas!

Meals very irregular. Some  
days breakfast at 8, dinner  
at 2, supper at 11 o'clock.

Today: 10, 2 and 8.

Sleeping a lot and  
feeling grand.

Much love

Kicky

Moscow - Saturday

Dearist:

It is amazing how much we have seen & heard here. We were received by the Metropolitan (or Bishop) of Moscow. He hopes to see our group in 1958. We met Baptist leaders last night. Have visited museums until they are running out of my ears. Made the rounds of stores. Went to the famous Bolshoi Theater for the ballet Swan Lake. It was wonderful. At 9 PM we leave by train for Leningrad - overnight.

ren. On the 9th we leave  
for Kielceki, spend the night  
there, and reach Paris at  
2:30 P.M. Am to meet  
Sherwood & Louise there.  
Then the round with the  
second group.

Am grateful indeed  
for continued good health.

Much love

Kirby

Dearest Sweetheart:

Chartered bus tour of West Berlin.  
Appalling wreckage - after 12 years. We are  
across from the old headquarters of the  
Sectapo, which was reduced to rubble.  
An an incredible way Berlin  
is being rebuilt with modern  
houses, factories and industrial  
establishments. We saw an entire  
community being rebuilt for  
3500 residents. Housing shortage  
extremely severe.

Excellent program here.  
What a report letter I am working  
on - six single-spaced typewritten  
pages! Tell Francis I will turn

it over to him the day after & return -  
Aug. 20th that is - and hope that arrangements can be made to rush it through the offset printer - 6000 copies.

on the second tour we are to meet several extremely important people we missed on the first tour - Niemoller, Henri Roer, Andre Philipp, Heinrich Grüber, Sigmund Schulze.

on Thursday we will find out if Margarete Lackmann and her husband will be able to go with us to Russia in 1958. Pastor Mensching is writing to Niemoller about the possibility of forming our Russian group.

This is proving to be a powerful spiritual experience. Will write again before taking off for Warsaw on Saturday.

Thursday 9<sup>20</sup> PM.

Had a wonderful visit in  
the home of Hans and Margrethe  
Lachmund. Both are definitely planning  
to go with us to Poland & Russia  
in 1958. They are inviting a  
Norwegian friend to go with us,  
and two people from England.  
Already Andre & Magda Troeme  
of France have said they would  
go to Poland & Russia with us.  
Talk with Mary & Kelt about  
his going with us - financed  
possibly by (1) AFSC (2) John

Dearie:

Excellent program. Pastor  
Mencling moved us deeply with  
the story of his life and will speak  
two or three additional times.

Marguerita Luckman, weighty  
Quaker, impressed us very  
powerfully.

We are out in the country  
near the small city of Bieleberg.  
Arrangements & facilities are  
primitive. Many speakers  
are coming here for our

next year we will know if  
the Luckmans will go to  
Russia with us in 1958.

The more I think about  
it, the more I want Nell  
to make the trip with us  
next year. It would mean  
much to him for the remainder  
of his life.

We can talk about your  
coming next year. The place  
is strenuous and often  
the food would not be  
good for you. Of course

we could supplement on the  
side. If you desire to come,  
we will work it out.

I am sleeping a lot  
and am skipping many  
activities. The weather  
has been cool. Nice and  
warm today.

Your letter came in  
four days. nice combined  
letter from Mary, Judy, Ronnie  
and Heather. Letter from  
Mary Jo.

This experience will mean  
much to my work.

If you have important  
word - such as Rinehart's  
reply - please refer to it  
in successive letters, to  
make sure that I get it.

I am holding up  
better than I anticipated.  
Except in Versailles, have  
had a room to myself.  
Writing many letters about  
the 1958 tour.

Love to the three &  
Devotedly Yours

Friday morning.

Dear Turly + Oliva:

Have been waiting for Perry  
to write but since it doesn't  
look as if he will I guess I  
had better.

Perry hasn't felt good since  
we have been here. For awhile  
I thought we might have to  
come home. The dust and  
pollen have bothered him a  
good deal. They haven't had  
any rain up here all summer  
and the wind has blown  
every afternoon.

We haven't done very  
much fishing only been out  
in the boat once. Most days  
have failed for a shore lo-

an hour or two. Fishing has been very poor, they seem to be feeding on the moss on the bottom of the lake.

We have felt the two atomic blasts very strongly here. The one last Sunday morning really shook our cabin, and made the mountain echo. The one this morning was much lighter.

I knew Joe would eat when he got hungry enough. How is Butch doing? Has Luke's surgery slowed her

There have been lots of deer around camp. I have seen several big bucks until the last three days. Still lots of does and fawns, they are quite gentle and I have been able to get quite close to them.

We are anxious to hear all about your trip Kirby and we looking forward to much talk soon.

Elma, I suspect you have been plenty busy trying to keep everything watered during this hot weather.

We have decided . . .

come up here again  
in August.

See you soon  
much love

Program is far ahead of our expectations. Everybody is really thrilled. It is almost incredible that in one week we should have talked with so many significant people: Muriel & Noss Lester, Sorenson MP, Yates MP, Hughes MP, seven or eight leaders of press movement in England, tea in House of Commons, Andie & Magda

Dear friends the Pages:-

When I want true facts, I always feel you are three who can help.

We had hoped to get up to see you but we are very much tied up since C.B. went back to work. He loves his work & I know he is young enough still to be a blessing to many people.

But here is my question - is there a definite place that we can point to, which proves it was not necessary to use the atomic bomb <sup>(historical)</sup> - it seems we heard that arrangements for cessation of hostilities had already been made - Can you help me on this?

(3)

I feel they have come a long way,  
but am still bothered by the fact  
that they feel Hiroshima was a  
means of saving many bombings  
in Japan + also great loss of life.  
The Japanese feel that to be true.

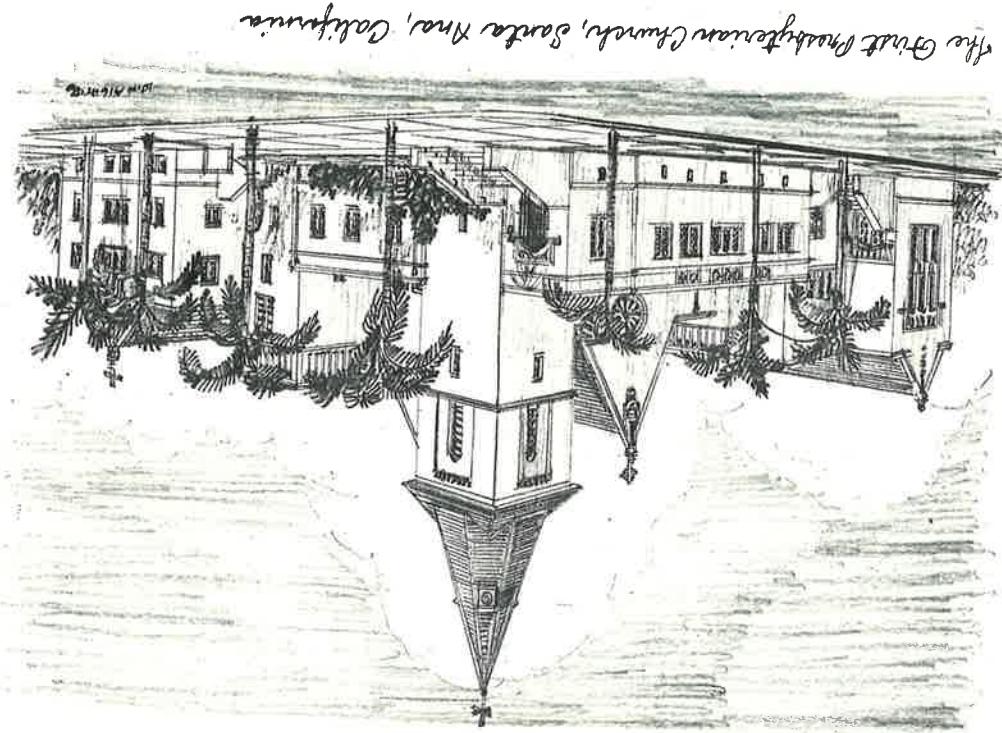

Now I love my sister + husband dearly  
+ would like to bring them all the  
way through to a complete victory.

I have a 30 min. devotional period  
next wed. before a large group of women.  
My subject is War + Peace (taken from  
sermon on Mt. teachings). Pray that  
I may help these women to understand  
the issue more clearly.

(2)

This is my reason (if you like time  
to hear me). During the 1st World War,  
Paul registered as one who would not  
bear arms — my good sister + husband  
have been missionaries to Japan for 9  
years. They have just retired + spent  
one week with us the 1st of April.

They were at home on furlough during  
that war + my S.I.L. told Paul he that  
he was yellow — in later years he was  
happy to have changed + now admires  
Paul. During another furlough during  
the last war — they still thought Japan  
had to be licked — but now they have  
come out + openly admired our son,  
Paul, who was a C.P. in war.

(4)  
Thanks so much for your time. It  
has been good to visit with you.

Gratefully,

Theresa P. Buege

Dear Kirby & Alma -

Doing my accounts - ☺  
just a note: We ☺ enjoyed  
your visit! Rup missed the  
ups ☺ the first few days -  
now he pesters Major all  
day long - but Major has  
accepted him (I guess one  
is better than three!) & even  
enjoys him sometimes. Rup is  
now sleeping in the dog house -  
has to be locked in tho. He's  
still not very house broken - &  
is outside most of the time. How  
he's grown - & getting much  
lighter. Beg all silver now.

The kids finally started  
calling him Rye - after I  
dropped the ~~the~~ idea - so that  
is the name.

Had a wonderful visit  
with Marge & John.

Made love to all -

Epsie
